

Donating Teqball tables to primary schools for creating a mass base for the new sport

What is Teqball?

Teqball is a ball sport that is played on a curved table, combining elements of sepak takraw and table tennis.

Back and forth, the players hit a football with any part of the body except arms and hands. Teqball can be played between two players as a singles game or between four players as a doubles game. The game is represented at an international level by the International Teqball Federation (FITEQ). A number of world-class footballers have been attracted by the game, and after being added to the programmes for the 2021 Asian Beach Games and the 2023 European Games, the sport is now aiming for Olympic inclusion.

Teqball was invented in 2014 in Hungary by three football enthusiasts: former professional player Gábor Borsányi, businessman György Gattyán, and computer scientist Viktor Huszar. The sport was officially presented in Budapest on 18 October 2016, by Brazilian ex-football player Ronaldinho, one of the ambassadors of Teqball.

Teqball Youth Project

We would like to promote one of the successful sports of our city, Teqball. Since there are national, European and world champions in our city, they are very good role models for young people.

We donated a Teqball table with three balls to each foundation/association operating next to elementary schools in Odorheiu Secuiesc.

The education is provided by the Gobé Teqball Team at the Rákóczi Center:

- Theoretical education, methodology: 2 x 4 hours
- Practical training: 2 x 4 hours

At the handover of the tables, the Gobé Teqball Team presented all the possibilities of using the equipment.

We asked school boards to provide a space for table use with training facilities and to support the organization of school championships in boys' and girls' singles, doubles and mixed categories every April for five years.

Our club organizes the city championship with the Gobé Teqball Team every May. School and city champions will be awarded by our club after each event.

We very much hope that with this action we will successfully support this group of young people of our city.

Since Teqball could be an Olympic sport at the 2028 Los Angeles Olympics, we can hope for the birth of another Olympic athlete from Odorheiu Secuiesc.

We handed over the tables to the following institutions
